SIMULATION ANSWER KEYS

## INTRODUCTION

This selection of survey forms and instructions has been created for use with the "Simulation Workbook". It contains those surveys and instructions for the exercises you will be completing during this training session. These are also the survey forms and instructions your institutions will be using as IPEDS is implemented.

In addition, at the back of the Compendium, there are additional blank survey forms for use during the exercises. Finally, if your group is covering any of the "Completions" Reports, or the "Fall Enrollment in Occupationally Specific Programs" Report, this packet contains a set of simulated computer generated reports from the Center For Statistics. These reports, which have some data already inputted (as would be the case in actual use), will receive additional data during the simulation.

## INSTRUCTIONS

### Completions Survey C1

#### Materials Provided

- Simulated Data Base
  - Simulated Computer Generated Surveys from CS
  - "Completions Map" Job Aid
  - "If/Then" Job Aid
- 
- Working alone or with others at your table, complete the survey using the data from the appropriate simulated Data Base.

#### Additional Guidance

- The simulation does not call for entries in all lines and columns. Do not assume a mistake where there is no entry.
- The exercise can be completed using the simulated Data Base and the Job Aids. However, if additional assistance is needed, instructions are found with the survey forms.
- For the purpose of this simulation, when a program/division identified in the report does not have a counterpart in the simulated data base, it can be assumed to no longer exist at the institution.
